The products of our collection COVISTOP® are not medical devices and are designed, made and sold by Eurostands S.r.l.
in collaboration with the Architect A. Balocchi.

YOUR ALLY IN THE SANITARY EMERGENCY

During a common conversation, the emission of saliva particles sets a very dangerous situation, that could lead to a Covid-19 contagion. To reduce this severe risk, a simple solution could be the installation of a COVISTOP protection screen, between the worker and the other interlocutor. With the set up of a protection screen, every operator can work in total security. Furthermore, the trasparence of our screens does not create a sense of isolation.

Our Covistop collections offers, in add, many others different safety devices, like sanitizing coloumns, multifunction coloumns and thermoscanner, our Kids collection designed for children, safety visors, plastcard signs or walkable sticky signs. They are ready to use and easy to set, build and hyge-nize.

PROTECTION SCREENS

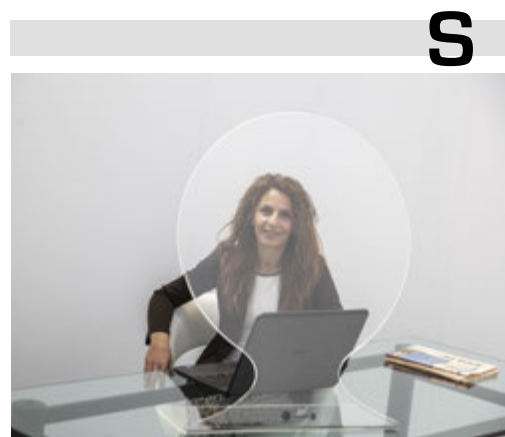

€120,00 VAT and shipping not included

Notes

Unique PMMA slab (plexiglass) 100 % recyclable and with a very high impact resistance

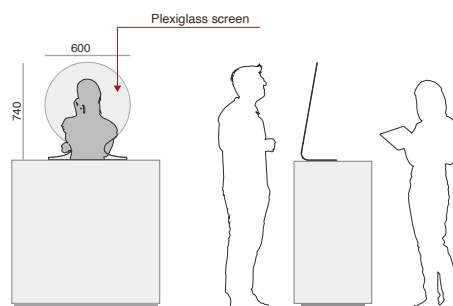

Size and weight

- H. 740 mm
- Ø 600 mm
- Base: 550 x 200 mm
- Width: 5 mm
- Weight: 3 kg
- Packed weight: 6 Kg

COVISTOP S (Simple) is an impermeable protection screen composed of a single slab. Ideal for small counter tops and for those who want a protection system that is not only functional but also with a refined design.

Our **COVISTOP S** can be found on the platform of the **United Nations Organization for Industrial Development – Information Technology Promotion Office Italy (UNIDO ITPO Italy)**, dedicated to technologies that are responding to COVID-19.

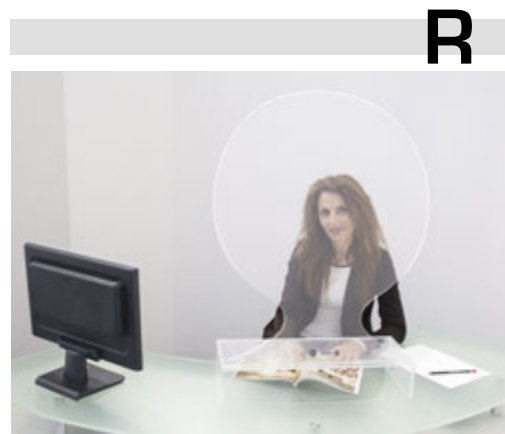

€130,00 VAT and shipping not included

Notes

Unique PMMA slab (plexiglass) 100 % recyclable and with a very high impact resistance

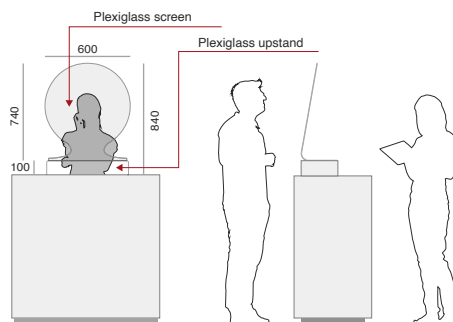

Size and weight

- H. 740 + 110 mm
- Ø 600 mm
- Base: 550 x 200 x 110 mm
- Width: 5 mm
- Weight: 4,5 kg
- Packed weight: 8 kg

COVISTOP R (Raised) is an impermeable protection screen. The “bridge” base permits to place it even on counter tops that are small or partially full with other materials. Ideal for those who want a protection system that is not only functional but also with a refined design.

Our **COVISTOP R** can be found on the platform of the **United Nations Organization for Industrial Development – Information Technology Promotion Office Italy (UNIDO ITPO Italy)**, dedicated to technologies that are responding to COVID-19.

SANITIZING GEL

€17,80 VAT and shipping not included.

SANITIZING GEL 1 LT

Alcoholic based sanitizing gel in 1lt tank convenience size.

ALCOGEL 70 - Alcoholic sanitizing hand gel.

Alcoholic hand gel produced to sanitize and cleanse. After its using, the skin becomes soft, hygienized and perfumed. The product contains 70% of ethilic alcohol, as referred by italian safety and health minister. The gel has a good viscosity and is suggested as sanitizing gel and handwahing for restaurants, offices and working spaces. It could also be used as a hand detergent without water.

HOW TO USE: To use without water. Dose it directly on the hands and rub untile the total evaporation. It is residualless and not sticky.

Available size: 1000 ml, 500 ml, 5 lt

INGREDIENTS: Denat. alcohol, water, Hydroxypropylcellulose, Glycerin, Parfum, Lactic Acid

HOW DOES IT LOOK: liquid gel

COLOUR: transparent

SMELL: alcoholic with a soft lemon perfume

DENSITY: 0,87-0,92 a 20°

VISCOSITY: 400 cps +/- 100

WARNINGS: easy flamable, reccomended to stock away from spark and fires. Don't smoke. Avoid contact with eyes and mucosae. Don't use on burned skin.

Don't waste the bottle after the use. In case of ingestion call quickly a doctor and show the bottle or the label. Keep away from kids. Stock away from heat sources. Cosmetic product. Exterior use.

ALCOGEL 70 is a cosmetic register to European portal CPNP.

Dermatologically tested.
